

I have been made aware of a change by the FCC on the No Call listing for advertisers. I would like to urge the FCC NOT to weaken the Wisconsin Do Not Call listing which would allow callers an additional 18 months of leeway to continue calling unsuspecting consumers. Why is our government so concerned about the needs of these intrusive businesses? Why are not you more concerned about all the nuisance calls coming into our homes? Along this same line, it is absurd that the Call List will now be available on the Cell Phone. These too are paid by our own funding, not for other solicitation on our own private lines. Please, FCC let's get down to what is right for the American family and reject any weakening of the Do Not Call listing for us.

Thank you Mr. & Mrs. Kenard (Linda M.) Kenworthy
